

# Contact Parents about Detentions

## Prerequisite Knowledge

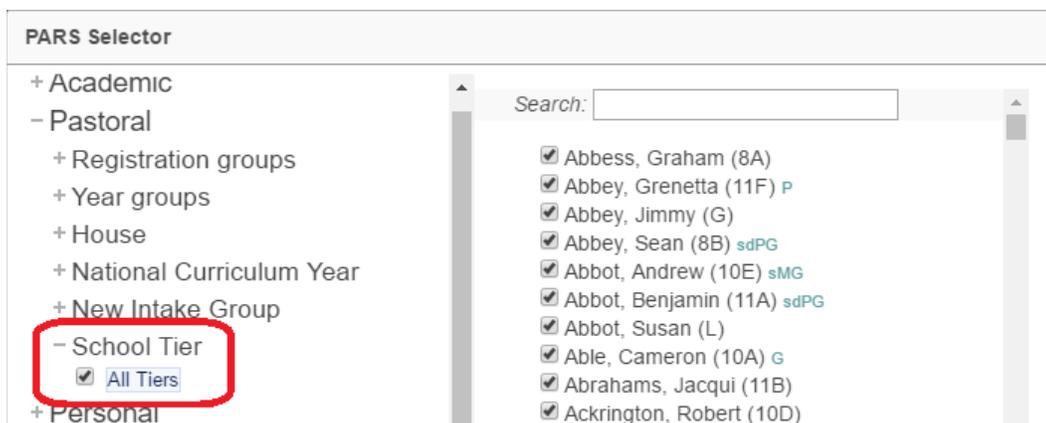

When sending messages to parents you can either type your message by hand or select a pre-defined message from the message bank. This guide does not cover the process for creating pre-defined messages in the message bank (although this is not required if you want to type your message by hand). For information about creating pre-defined messages, see the **Create a message bank** guide.

## Finding the Detentions to Contact Parents about

To find certain behaviour incidents, go to:

**Main menu > Detentions > Edit detentions > Edit scheduled detentions**

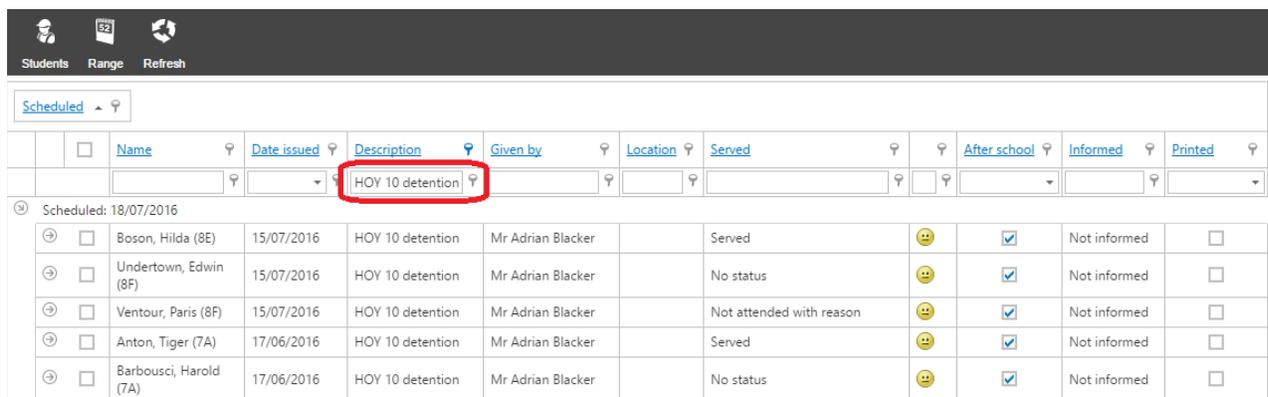

A student selector will open. On the left side of the window, select the All Tiers option under the School Tier section.

*Some schools do not see the All Tiers group and instead will see groups like KS3, KS4, etc. If this is the case, select all of the groups under the School Tier section.*

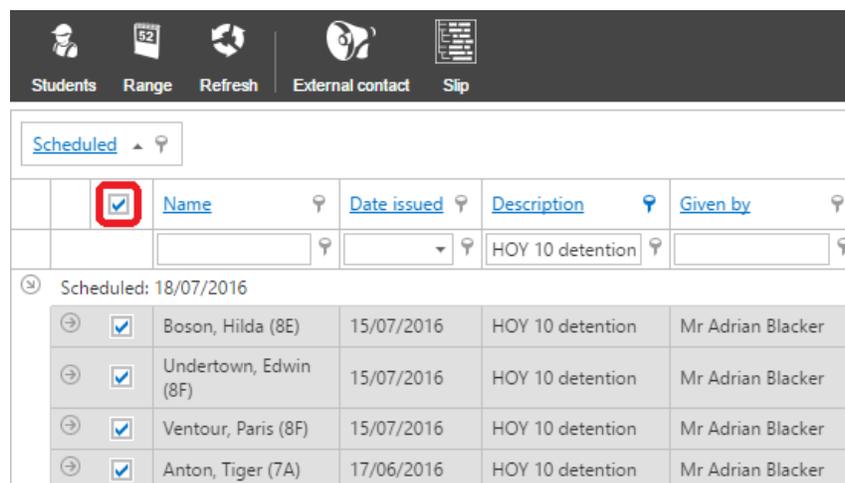

A list of detentions will now be shown on screen. Click the **Range** button and select the day/date range of the detentions that you want to contact parents about, then click **OK**.

You can filter the list of detentions so that it only shows certain detentions i.e. only Head of Year detentions. To do this, type the name of the detention beneath the Description column header.

<input type="checkbox"/>	Name	Date issued	Description	Given by	Location	Served	After school	Informed	Printed
			HOY 10 detention						
Scheduled: 18/07/2016									
<input type="checkbox"/>	Boson, Hilda (8E)	15/07/2016	HOY 10 detention	Mr Adrian Blacker		Served	<input checked="" type="checkbox"/>	Not informed	<input type="checkbox"/>
<input type="checkbox"/>	Undertown, Edwin (8F)	15/07/2016	HOY 10 detention	Mr Adrian Blacker		No status	<input checked="" type="checkbox"/>	Not informed	<input type="checkbox"/>
<input type="checkbox"/>	Ventour, Paris (8F)	15/07/2016	HOY 10 detention	Mr Adrian Blacker		Not attended with reason	<input checked="" type="checkbox"/>	Not informed	<input type="checkbox"/>
<input type="checkbox"/>	Anton, Tiger (7A)	17/06/2016	HOY 10 detention	Mr Adrian Blacker		Served	<input checked="" type="checkbox"/>	Not informed	<input type="checkbox"/>
<input type="checkbox"/>	Barbousci, Harold (7A)	17/06/2016	HOY 10 detention	Mr Adrian Blacker		No status	<input checked="" type="checkbox"/>	Not informed	<input type="checkbox"/>

Now select all of the detentions using the checkbox at the top left of the page, then click the **External contact** button on the top toolbar.

<input checked="" type="checkbox"/>	Name	Date issued	Description	Given by
			HOY 10 detention	
Scheduled: 18/07/2016				
<input checked="" type="checkbox"/>	Boson, Hilda (8E)	15/07/2016	HOY 10 detention	Mr Adrian Blacker
<input checked="" type="checkbox"/>	Undertown, Edwin (8F)	15/07/2016	HOY 10 detention	Mr Adrian Blacker
<input checked="" type="checkbox"/>	Ventour, Paris (8F)	15/07/2016	HOY 10 detention	Mr Adrian Blacker
<input checked="" type="checkbox"/>	Anton, Tiger (7A)	17/06/2016	HOY 10 detention	Mr Adrian Blacker

## Contacting Parents

Parents can be contacted by email, SMS, letter or telephone call. There is a slightly different process for recording telephone calls than the other methods of contact. All are explained below.

### Email, SMS and Letter

You will see a page with three tabs at the top right. On the first tab you need to select the types of parents you want to contact:

Recipient option in PARS	Who will be contacted
Student	Students
Priority 1 contact with Parental responsibility	Contacts who are both priority 1 and have parental responsibility
Priority 1 contact regardless of Parental responsibility	Contacts who are priority 1
All contacts with Parental responsibility	Contacts with parental responsibility

Select one options from the recipients list; this is the type of person who will be contacted (as shown above).

Next select the method you want to use from the **Method** section. If you select one of the **falling back** options, then the second type of communication will only be used if the recipient cannot be contacted using the first type.

*E.g. **Email falling back to SMS**. SMS will only be used if the recipient does not have a valid email address.*

When you are happy with the options selected, click on the **Stage 2: Identify** tab at the top of the window.

The **Stage 2** tab will check that all pupils have at least one contact who can be contacted by PARS. Any pupils who cannot be contacted will be highlighted in red. You can either:

- Continue, knowing that the pupils highlighted in red will not be contacted
- Login to SIMS and change their contact details so that somebody can be contacted using the rules selected in PARS
- Go back to the **Stage 1** tab in PARS to change the options for recipients

Once you are happy with information shown, click on the **Stage 3: Documents** tab. Each method of contact will be shown and there will be a button underneath each section type of contact for which a message is going to be sent.

Click the button(s) to configure your message. A window will open where you can type your message. You can include mail merge fields by clicking **Insert > Field**. Alternatively you can select from a list of pre-defined messages by clicking **Insert > Template**.

*Note that PARS does not come with any pre-defined messages. These need to be created by your school in the message bank which is accessed via:*

**Main menu > Contact management > Configure > ... message bank**

Once you are ready to send your messages, click the **Generate** button at the top left of the page. Emails and SMS messages will be sent instantly. If you are sending letters, a window will appear with a **Collect** link. Click the link to download your letters.

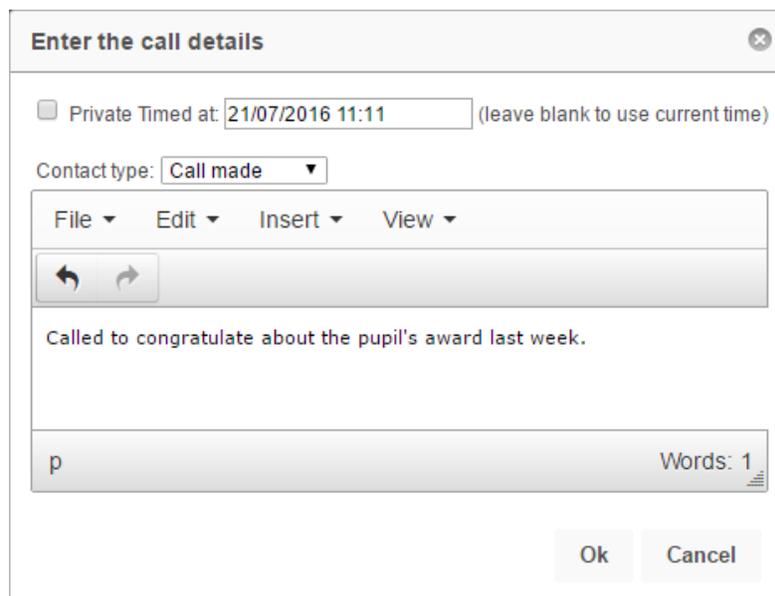

## Recording Telephone Calls

To record phone calls, first click the **Close** button at the top right of the page to exit the wizard.

Each of the pupils will be listed on the left of the page, and one pupil's details will be shown on the right. Click on a pupil's name from the left side of the page to load their contact details.

Once you have loaded a student's details, use the right side of the page to find one of their contacts' phone numbers. Click the **Call** button next to the phone number you are going to use.

This will open a window where you can type the details of your phone call. PARS knows who you are, which student you are contacting, which parent you are contacting, what day it is and what time it is. All of this information is recorded automatically so you only need to type the details of the phone call.

At the top of the window there is a dropdown box. You can use this to record whether the call was made successfully, there was not answer, a voicemail was left, etc. Once you have finished typing the details of the phone call click the **OK** button and the information will be saved to the pupil's contact log.
